

CHILDREN'S WEEK 2017

Department of Pedodontics and Preventive Dentistry in collaboration with Department of Orthopaedics, Department of Pediatrics and Department of Ophthalmology, celebrated Children's week from November 13th-17th, 2017. The program entailed dental as well as medical check-up of visually impaired children as well as children with hearing impairment.

Dental check-up followed by preventive dental treatment as indicated like oral prophylaxis, fluoride treatment and pit and fissure sealant applications was done for all the 110 children.

Children's week also entailed activities like Drape painting and mouth mask painting competition for under-graduate and post-graduate students, in which total participants were 90.
