

ACADEMIC ACTIVITIES

Parents Teacher Meeting 2015 held on 3rd April 2015 at COP, SV

College of Physiotherapy, Sumandeep Vidyapeeth had organized Parents Teacher Meeting 2015 on Friday, 3rd April 2015.

The meeting was conducted in two sessions. The morning session started at 10:15 am, where parents of 1st year BPT and 2nd year BPT were addressed first by the Principal, who thanked them for attending and briefed them about the purpose of meeting and then the class coordinators gave the details about the performance of students of their respective classes, in general. The afternoon session which began at 3 pm, parents of 3rd year BPT and Final year BPT were again similarly addressed by the Principal and then by respective class coordinators. As refreshment, arrangement of tea was done for the parents. The tea was arranged for 120 persons in the morning and 25 persons in the afternoon. **The brief details of each session are as below;**

Morning session:

Faculties present:

Prof Dr Lata Parmar (Principal),

Dr Niketa Patel (2nd year Coordinator).

Dr G.P. Kumar (U.G. Coordinator),

Dr Kalpesh Satani,

Dr Neha Mukkamala (1st year coordinator),

Dr Tanvi Dalvi (2nd year Coordinator),

Dr Tejas Chokshi (3rd Year coordinator),

Dr Megha Mehta (Student Dean),

Dr Saraswati Chitaria (1st year coordinator),

Approx. 100 parents of 1st year and 2nd year BPT students were present in the meeting. The Principal briefed them about the purpose of the meeting. Afterwards, 1st year BPT class coordinator and 2nd year BPT class coordinator projected progress of respective year till date. The information included were details of subjects of that class, result analysis of 1st and 2nd term and attendance of students. Following this, the U.G. coordinator explained certain disciplinary rules mandated by the University. The session was concluded with open house session where parents asked their queries and the principal and / or class coordinators cleared their doubts. After the session tea was served and parents were directed to 1st year BPT and 2nd year BPT classroom for personal / one to one interaction with class coordinators / Mentors.

In the morning session, few parents had queries regarding absenteeism and exams:

- ❖ One parent had a doubt that despite parents sending application of leave; students are marked absent at the time of attendance. The parent was explained about the purpose of application which is to make teachers aware about the absence of their ward in the College and the application will **NOT** convert absence into presence.
- ❖ Another parent asked if her ward is absent in 1 or 2 lectures in one subject which is having already less number of lectures e.g. 7 lectures, in rest of the subject her ward is having >90 % of attendance so will University withhold her ward in that particular subject due to lack of attendance?
- ❖ The parent was explained that it has to be assured that student is not purposefully remaining absent in the particular subject due to reasons like disliking the subject or bunking the lectures etc. If the reason of absence is valid, at the time of University exam, the exam committee (at departmental level) will assess overall performance of student and then will take the decision in betterment of the student.
- ❖ Some of the parents requested to provide bus service during exams as they have to come to pick their wards in the afternoon, as they leave early. The Principal told them that the matter will be discussed with the authorities.

- ❖ There was a question regards University paper for “Evidence based Practice”. The Principal informed all University is planning to have an University exam for “evidence based practice” but still the matter is under discussion.
- ❖ There was a query-“if due to certain unavoidable reason student is not able to attend prelim exam, will he/she be allowed to appear for university exam?” The Principal informed that prelims are compulsory, that according to the situation of emergency and student’s overall performance, exam committee will decide about the eligibility of the student to appear in University exams.
- ❖ Few parents requested annual calendar of events. They were informed that already the calendar of events is kept on notice board.

They were explained satisfactorily clarifying their doubts by the Principal and U.G. coordinator.

Afternoon session:

Faculties present:

Prof Dr Lata Parmar (Principal),

Dr G.P. Kumar (U.G. Coordinator),

Dr Kalpesh Satani,

Dr Tejas Chokshi (3rd Year coordinator),

Dr Megha Mehta (Final Year coordinator),

Dr Palak Mistry (3rd year coordinator),

Dr Neha Modi (Final Year coordinator).

Dr Niketa Patel (Assistant student dean)

Afternoon session: Approx 15 parents of 3rd year and Final year BPT students came. Once the Principal thanked them and briefed them about the purpose of meeting, Third year BPT and Final year BPT class coordinators presented progress of their students to the parents who were present and the UG coordinator spoke about the University discipline rules which were mandatory.

The session was concluded with question-answer session where parents asked their doubts. The Principal tried to satisfy their doubts. After session tea was served and parents interacted with class coordinators personally.

In the afternoon session, parents put forwarded few difficulties experienced by students. They also had few doubts which were clarified by the Principal.

- ❖ Parents wanted clarity in %age of required attendance, the criteria of 90% was projected, the Principal emphasized that we targeted for 90% of attendance so at the time of University exam none of the students are < 80% and detained because of the attendance.
- ❖ One parent requested that in summer final year class room becomes very hot. So can there be any solution for the same? E.g. change of class room during summer time. The Principal told that we will look into the matter and try for some temporary solution.
- ❖ Few parents requested to change the College timings because their wards get exhausted when they reach home and are not in situation to study or do any other activity. The Principal informed that changing College timings is a problem because we have to coordinate with medical College for medical subjects.
- ❖ One parent requested for extra fans in 3rd year class room. The class coordinator informed that yet no such complaints were received from students but the Principal assured that we will look in to the matter.
- ❖ There was a request to declare course for exam earlier? The parent was informed that the students are always informed well in advance; soon the annual course will be identified and put up well in advance.
- ❖ One parent had query regards completion of journals; they were assured that sufficient time is given to the students for submission.
- ❖ There was a question about students being relieved at 6:30pm to 7:00pm during exams, as it was a problem for female students to travel late in evening in chakras. The Principal told them that as there were more number of the students and sometimes it is not in their hands that the time gets extended. However, this is already under consideration and probably avoided next time.
- ❖ There was a request to arrange one staff to accompany students during transportation for evening functions, if students are going to be relieved late. The Principal told that this always is a policy.

At the end of each session, feedbacks from the parents were collected by class coordinators.

Visit to Bionic Rehab, Vadodara

The College of Physiotherapy had arranged a visit on 23/04/2015 for final year BPT students to Bionic Rehab – Rehab centre of Dr Virendra Shandilya, a visiting faculty of our college. It was organized to provide better understanding to our students about fabrication of various orthosis and prescription of prosthesis, which are part of the curriculum. An approval from the Registrar regarding the visit was taken in April'2015, and the arrangements were made.

The list of the orthosis and prosthesis that needs to be demonstrated, was prepared by class co-ordinator and subject in charge, and was got approved by the Principal. On 23/04/2015, eleven final year BPT students with Dr Niketa Patel left Sumandeep Vidyapeeth campus around 12:15 pm in college bus (City Ride 3136). Thirty two students who live in Vadodara preferred self transportation. The session started at 1pm. The session was interactive in nature.

Mr Keyur Mehta (Orthotist and Prosthetist), demonstrated various orthosis and prosthesis and its mechanism to the students. Small practical session of observational gait analysis (lower limb amputate) and students practiced application of orthosis on each other under Mr Keyur Mehta's supervision. At last donning and doffing of transtibial prosthesis on a patient was demonstrated to the students. The session ended at 4:15pm. The students residing in hostel returned to campus in college bus.

CONTINUOUS PHYSIOTHERAPY EDUCATION (CPE) ON “PHYSIOTHERAPY SKILLS IN ICU – A HANDS ON WORKSHOP”

College of Physiotherapy, Sumandeep Vidyapeeth organized one day CPE on “**PHYSIOTHERAPY SKILLS IN ICU – A HANDS ON WORKSHOP**” on 27 April 2015 at College of Physiotherapy at Pipariya, Waghodia, Vadodara.

In continuation to our last CPE on Pulmonary Physiotherapy Care and Rehabilitation, this Scientific Program envisages Physiotherapists to develop physiotherapy assessment and management skills on Intensive Care Unit patients. India is increasingly having more number of patients who suffer from various Pulmonary problems that requires an effective Incentive Physiotherapy care.

College of physiotherapy invited two specialists, one of them was specialists in Cardio Pulmonary Physiotherapy, **Dr. Jaimala Vijay Shetye**, Associate Professors, Physiotherapy school and Centre, Seth GSMC and KEMH, Parel, Mumbai conducted this workshop. Our second speaker was Dr. Chaitri shah, Associate Professors & Incharge of critical care department, Dhiraj Hospital, Pipariya, Vadodara.

Inaugural function of this workshop began at 11 am and Prof. Lata D Parmar, Principal, College of Physiotherapy, welcomed all the dignitaries and resource persons of the Workshop.

Air Commodore (Dr) G D Mehta, Hon Chancellor, SVU, presided over the inaugural function of the workshop and asked delegates to take full advantage of speakers who shared their expertise. He also said Physiotherapists should themselves take care of the health of their own lungs so that they can help patients who are in need of them. Shree N N Shah, Registrar, Sumandeep Vidyapeeth was also present in the inaugural function.

Dr Jaimala & Dr Chaitri both conducted the workshop and they spoke about the length and breadth of Physiotherapy in Critically ill Pulmonary care. In afternoon session, they took the delegates to the ICU and shown them the skills required in handling and treating the patients.

Dr. Mansukh Shah, President, Sumandeep Vidyapeeth, Dr Dixit Shah, Managing Trustee of Sumandeep were patrons of this workshop and gave total support to make this program successful.

Participants from various Physiotherapy colleges of Gujarat attended the workshop and benefitted from the lectures and activities held at the workshop designed by the eminent ICU professionals.

RESEARCH ACTIVITIES

PG ACTIVITIES

During the January – April 2015 period PG students conducted many academic activities that are listed in the table below:

| Activity | PG I | PG II | Total |
|----------------------|------|-------|-------|
| Seminar | 20 | 21 | 41 |
| Journal Presentation | 11 | 45 | 56 |
| Skill Presentation | 09 | 04 | 13 |
| Case discussion | 12 | 41 | 53 |

MPT students had attended 02 weekly clinical meets organized by SBKSMI & RC on topics ‘Cardiac cephalgia’ and ‘Glomerulonephritis’.

MPT-I students and from MPT-II with cardiac specialty students had also attended CME titled “Hands on workshop Physiotherapy skills in ICU” in April 2015 organized by COP, SV.

Apart from academic activities, students took participation in women’s day celebration. They had a talk on women empowerment.

List of seminar & Clinical skills during (Jan – April 15)

List of seminars

| Sr. No. | Date | Seminar Title | Presenter |
|---------|-----------|---|------------|
| 1. | 13-1-2015 | Seminar presented on cough and compression training | Parth D. |
| 2. | 21-1-2015 | Seminar on biomechanics of shoulder joint | Fenny D. |
| 3. | 27-1-2015 | Seminar on neurogenic bladder and bowel | Megha S. |
| 4. | 27-1-2015 | Seminar on principles of pathological investigations and imaging techniques in cardiopulmonary conditions | Bindi S. |
| 5. | 3-2-2015 | Seminar on advanced therapeutics in LASER | Dhruval M. |
| 6. | 4-2-2015 | Seminar on biomechanics of shoulder joint | Fenny D. |
| 7. | 5-2-2015 | Seminar on advanced therapeutics in LASER | Dhruval M. |
| 8. | 10-2-2015 | Seminar on physiotherapy in psychiatric condition | Preksha N |
| 9. | 10-2-2015 | Seminar on principles of pathological investigations and imaging techniques in cardiopulmonary conditions | Bindi S. |
| 10. | 11-2-2015 | Seminar on thermoregulatory changes during exercise | Maitri S. |

| | | | |
|-----|-----------|---|-------------|
| 11. | 18-2-2105 | Seminar on anatomy and physiology of respiratory system | Parth D. |
| 12. | 18-2-2015 | Seminar on thermoregulatory changes during exercise | Maitri S. |
| 13. | 24-2-2015 | Seminar on principles of pathological investigations and imaging techniques in musculoskeletal conditions | Ruchi S. |
| 14. | 25-2-2015 | Seminar on thermoregulatory changes during exercise | Maitri S. |
| 15. | 3-3-2015 | Seminar on applied physiology of respiratory system | Parth D. |
| 16. | 3-3-2015 | Seminar on principles of pathological investigations and imaging techniques in musculoskeletal conditions | Ruchi S. |
| 17. | 4-3-2015 | Seminar on body composition | Maitri S. |
| 18. | 10-3-2015 | Seminar on advance therapeutics in ultrasound therapy | Vrunda L. |
| 19. | 10-3-2015 | Seminar on principles of pathological investigations and imaging techniques in neurological conditions | Pooja R. |
| 20. | 11-3-2015 | Seminar on body composition | Maitri S. |
| 21. | 17-3-2015 | Seminar on principles of pathological investigations and imaging techniques in neurological conditions | Pooja R. |
| 22. | 17-3-2015 | Seminar on advance therapeutics in ultrasound therapy | Vrunda L. |
| 23. | 18-3-2015 | Seminar on orthopaedic implants | Chandani M. |
| 24. | 25-3-2015 | Seminar on biomechanics of gait | Dhruval M. |
| 25. | 25-3-2015 | Seminar on obesity | Bindi S. |
| 26. | 30-3-2015 | Seminar on total knee arthorplasty | Fenny D. |
| 27. | 31-3-2015 | Seminar on principles of pathological investigations and imaging techniques in neurological conditions | Pooja R. |
| 28. | 31-3-2015 | Seminar on physiotherapy in deficiency disorder | Dhwani M. |
| 29. | 1-4-2015 | Seminar on nutrition, caloric balance and obesity management | Bindi S. |
| 30. | 1-4-2015 | Seminar on gait analysis | Dhruval M. |
| 31. | 3-4-2015 | Seminar on lymphoedema | Bhavi P. |
| 32. | 7-4-2015 | Seminar on principles of pathological investigations and imaging techniques in neurological conditions | Pooja R. |
| 33. | 7-4-2015 | Seminar on neurology in ageing | Shuchi J. |
| 34. | 8-4-2015 | Seminar on obesity and weight management | Bindi S. |
| 35. | 8-4-2015 | Seminar on lymphoeddema and its management | Bhavi P. |

| | | | |
|-----|-----------|--|------------|
| 36. | 9-4-2015 | Seminar on osteoarthritis of knee joint | By Fenny |
| 37. | 15-4-2014 | Seminar on visual rehabilitation in homonymous hemianopia | Preksha N. |
| 38. | 15-4-2015 | Seminar on obesity and weight control | Bindi S. |
| 39. | 22-4-2015 | Seminar on obesity and weight control | Bindi S. |
| 40. | 28-4-2015 | Seminar on developmental screening | Maitri S. |
| 41. | 29-4-2015 | Seminar on Individual and environmental factor influencing muscle work | Ruchi S. |

List of Clinical Skills

| Sr. No. | Date | Skill topic | Presenter |
|----------------|-------------|-----------------------------------|------------------|
| 1. | 19-1-2015 | Skills on limb length discrepancy | Maitri S. |
| 2. | 20-1-2015 | Skill on primitive reflex | Dhwani C. |
| 3. | 2-2-2015 | Skills on mobilization | Bindi S. |
| 4. | 18-3-2015 | Skill on skin fold measurements | Maitri |
| 5. | 30-3-2015 | Skills on finger ROM measurement | Megha S. |
| 6. | 1-4-2015 | Skill on massage | All PGs |
| 7. | 6-4-2015 | Skills on muscle length test | Pooja R. |
| 8. | 8-4-2015 | Skill in compression stockings | All PGs |
| 9. | 20-4-2015 | Skill on relaxation techniques | Ruchi S. |
