

In Service Education Program

In- service education in general terms, may be defined as educational activities planned and organized by the employers for the employees to assist them in learning and/ or furthering the knowledge, skills and attitudes required for the achievement of the specific purpose of the organization.

AIM:

- To Plan educational activities.
- To Provide education in a job setting
- Closely identified with services.
- Helps employee to improve job performance.

In- service education is a process of helping the nurse to carry out the functions commensurate with her obligations for nursing services.

It also helps to develop their skills necessary to reach the ultimate goals of health agency that is

1. The highest quality of patient care and
2. To keep abreast of changing techniques and use of sophisticated tools and equipment.

OBJECTIVES OF IN- SERVICE EDUCATION:

FOR THE ORGANIZATION:

- Keeps the nursing staff enthusiastic in their learning
- Develops interest and job satisfaction amongst the staff
- Develops sense of responsibilities for being competent and knowledgeable
- Creates an appropriate environment with opportunities for growth and communication
- Helps the nurses in making appropriate and sound decisions as well as using effective problem solving techniques

FOR THE INDIVIDUAL EMPLOYEES:

- Leads to improve professional practice
- Aids in updating knowledge and skills at all level of organization
- Keeps the nurses abreast of the latest trends and developments in techniques
- Equips the nurses with knowledge of current research and development
- Helps the nurses to learn new and maintain old competencies

PRILIMINARY SURVEY:

The needs can be identified by means of

- Survey
- Observation of work performance
- Interview method

In our in- service education program we have used survey method for finding needs. The survey was done with the use of self- made tool “NEED BASED ASSESEMENT RATING SCALE “. We selected 26 topics, which were cut down to most rated top 16 topics using the scale by the staff nurses of Dhiraj Hospital, Piparia, Waghodia.

NEED ASSESSMENT RATING SCALE

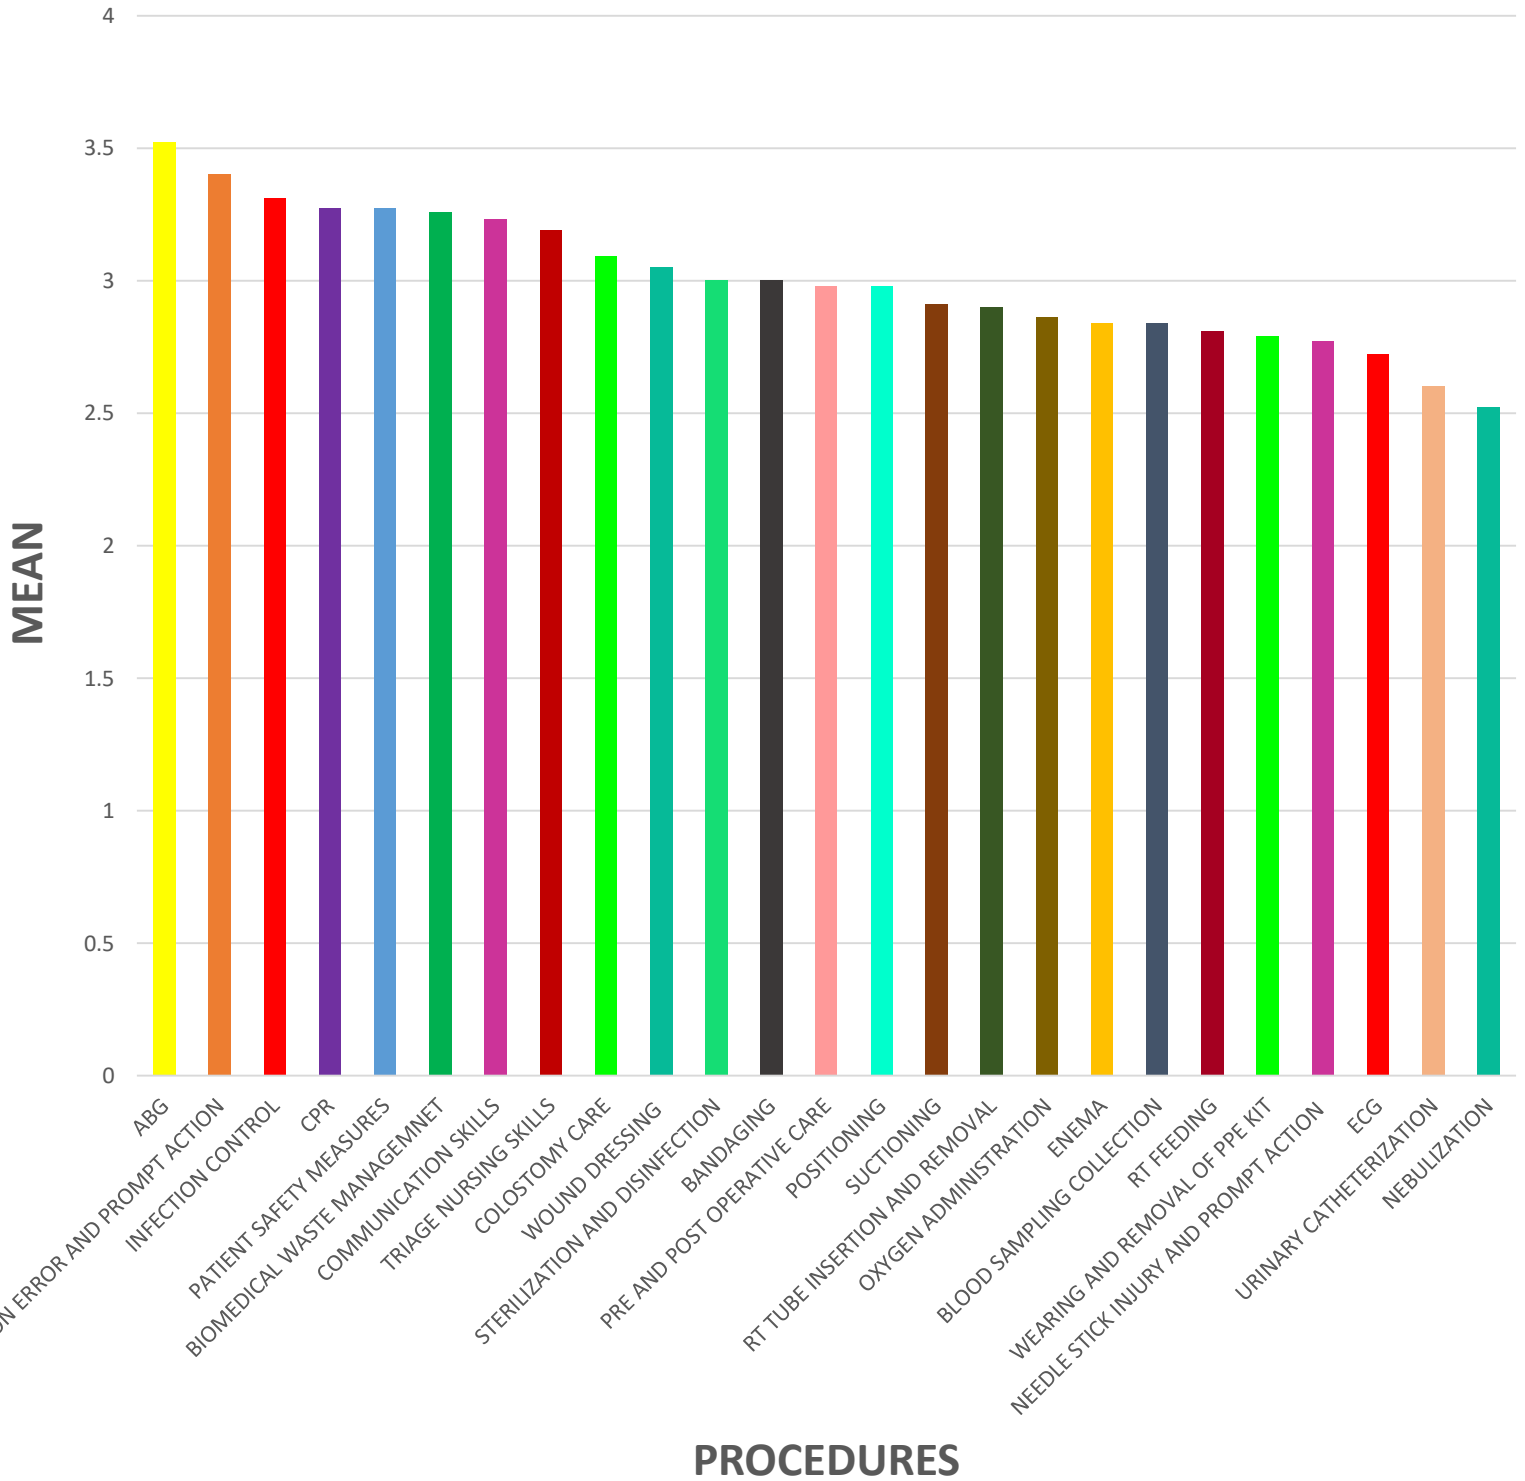

Figure I: Mean of Need based procedures in DGH

After the analysis of the rating scale and finding out the mean, the 16 topics as per most rated to less rated were finalized. These topics were then divided to a group with 6 students. Total there were 8 groups, with 2 sub groups in one. The in-service education program was held in Male Surgical Ward's demo room of Dhiraj Hospital with the help of teaching faculty. The schedule for the same as follows:

Sr. No.	TOPIC	DATE
1	<ul style="list-style-type: none"> • ABG • BIOMEDICAL WASTE MANAGEMENT 	25/01/2021
2	<ul style="list-style-type: none"> • INFECION CONTROL • RYLE'S TUBE INSERTION AND REMOVAL 	27/01/2021
3	<ul style="list-style-type: none"> • CPR • WOUND DRESSING 	28/01/2021
4	<ul style="list-style-type: none"> • PATIENT SAFET MEASURES • STERELIZATION AND DISINFECTION 	29/01/2021
5	<ul style="list-style-type: none"> • COMMUNICATION SKILLS • SUCTIONING 	01/02/2021
6	<ul style="list-style-type: none"> • TRIAGE NURSING SKILLS • BANDAGING 	02/02/2021
7	<ul style="list-style-type: none"> • COLOSTOMY CARE • POSITIONING 	03/02/2021
8	<ul style="list-style-type: none"> • PRE AND POST OPERATIVE CARE • MEDICATION ERROR AND PROMPT ACTION 	04/02/2021

CONCLUSION:

The in- service education program conducted by final yr. B.Sc. Nursing students under the guidance of subject teachers i.e. Mrs. Bhoomika Patel (Assistant Professor) and Mrs. Bhavisha Patel (Assistant Professor) for 8 consecutive days were successfully done. It was arranged under the subject of “ Management of Nursing Services and Education”.

While performing the in- service education by the student nurses, achievement of objectives and aims were successfully done. Not only the participants but the students themselves learned a lot and gained different knowledge and skills regarding the topic. They also developed a team attitude as well as stimulated and developed occupational interest in the employees.
